# Small and big moments just for you.

At the table, at sea, by the pool, at Le Martin, live at your own pace and enjoy a collection of unique moments.

## Breakfast included in the price

Breakfast is the first experience of the day. Here, everything is homemade! Pain au chocolat, croissants, bread, jams, spreads... What a delight! Imagine fluffy cakes, reinvented waffles, healthy toasts...Recipes passed down from our grandmothers that gently transport us back to childhood... We bite into them, devour them, it's comforting, it's a treat!

## Kayaking and Paddleboarding

We extend the Martin hotel experience by providing kayaks, paddleboards, and free diving equipment for you to explore the bay with its vibrant colors and observe turtles or rays.

## Cocktails and the Honor Bar

We offer our guests a wine cellar with great selections, a range of aged rums and Japanese whiskies are at your disposal. Help yourself and write down your guilty pleasures on a board.

## Lunch and dinner by the pool

If you feel like simply lounging by the pool, you can enjoy a healthy lunch. As evening approaches, if you want to relax in the lounge and have a meal under the stars, we can create a romantic atmosphere for you.

## And the small details that make all the difference.
